---

## Work Experience

### Sr. Lead Frontend Developer

*Oodles Technologies – Gurugram, Haryana | Aug 2022 – Present*

- Lead frontend implementation for production web applications using React.js, Next.js, Vue.js, Nuxt.js, and Strapi CMS, driving technical decisions and ensuring scalable, maintainable solutions.
- Design reusable frontend architectures and component patterns to improve code maintainability, consistency, and development efficiency across projects.
- Improved application performance by 36% through SSR, code splitting, lazy loading, and frontend optimization techniques.
- Conduct code reviews and mentor junior developers, providing technical guidance and maintaining frontend coding standards and best practices.
- Collaborate directly with clients and cross-functional teams to understand requirements, estimate

development effort, plan implementation, and deliver production-ready solutions.

- Customize Strapi CMS through plugins and extensions and integrate REST APIs to support application requirements and business workflows.
- Contribute to CI/CD workflows and release processes, supporting reliable and consistent application delivery across environments.

### **Associate Consultant (Frontend Developer)**

*Oodles Technologies – Gurugram, Haryana | Jun 2021 – Jul 2022*

- Built responsive Web3 applications using React.js, integrating MetaMask wallets, Ethereum blockchain interactions, and REST APIs.
- Developed reusable component libraries that improved UI consistency, development efficiency, and accessibility across applications.
- Optimized frontend performance and maintained Lighthouse scores above 90 while ensuring responsive, cross-browser compatible user experiences.

### **Web Developer**

*Balj Services Pvt. Ltd. – Noida, Uttar Pradesh | Oct 2020 – May 2021*

- Led the migration of a legacy PHP application to Next.js, restructuring the frontend architecture while preserving existing functionality and SEO.
- Improved page load times by 40% through SSR, code splitting, and frontend performance optimization.
- Increased SEO visibility by 20% through performance improvements and SEO-focused frontend implementation.
- Modernized and maintained the legacy codebase by implementing reusable components, responsive UI, and scalable frontend practices.

---

## **Education**

### **Bachelor of Computer Applications (BCA)**

Dr. Bhimrao Ambedkar University, Agra

2017 – 2020

---

## **Selected Projects**

### **Sosh NFT**

Built a production NFT marketplace supporting digital asset minting and auctions, with Ethereum wallet authentication and smart contract integration.
