Bachelor of Computer Applications (BCA)

Dr. Bhimrao Ambedkar University, Agra
Aug 2017 – Sep 2020

Certifications

Certificate in Computer Concepts (CCC) – NIELIT | July 2016

Projects

WPTG Play – [<http://wptgo.com>]

Web-based poker and casino game platform built with Vue.js and integrated via webview in desktop apps.

Sosh NFT – [<https://www.soshnft.io>]

Decentralized NFT platform for minting and auctioning social media content. Integrated Ethereum smart contracts and wallet authentication.

Casino Lobby – [<https://casino-lobby-bju.pages.dev/>]

Web app for aggregating and launching casino games using Vue.js. Embedded within desktop clients.

Gamaverse – [<https://gamavrs.com/>]

NFT avatar minting app with randomization logic. Included admin panel for avatar management.

Moments Auction – [<https://gamavrs.com/moments-auction>]

3D NFT collection auction platform built with Ethereum smart contracts and wallet authentication. Features user bidding and marketplace functionality.

Gamaverse Admin Panel

Administrative dashboard for managing avatars, auctions, and NFT settings. Features include auto-generation tools and RBAC controls.

College Disha – [<https://www.collegedisha.com>]

Educational portal developed in React.js with SSR using Next.js for enhanced performance.

Staff Tracker App – [<https://play.google.com/store/apps/details?id=com.livetracker>]

Android app built with React Native to monitor staff activities, attendance, and geolocation.

Grocery Store App – [<https://play.google.com/store/apps/details?id=com.bringfresh>]

Mobile grocery delivery platform with React Native. Integrated ordering and delivery tracking features.

Online Mock Exam Portal – [<http://admin.ourexamination.com>]

Exam platform built in Angular 8 for practice tests and institutional assessments.

Image Manipulation App

College project offering basic editing features such as cropping, resizing, adding filters, and collage creation. Included cloud storage capabilities for image management.

Distinct NFT Marketplace

Developed a full-stack NFT marketplace with wallet integration. Enabled users to

create, mint, and auction NFTs. Built an admin panel for managing listings, users, and auction settings. Implemented Role-Based Access Control (RBAC) for secure access.

In-App Promotions – [<https://inapp-promo.pages.dev/>]

Built with Vue.js, this application lists promotions with a detailed view and is integrated into desktop applications using webview.

Casino Builder

Drag-and-drop web application for creating region-specific casino lobbies. Focused on UX design and modular architecture.

New Jobs Hub – [<http://www.newjobshub.com>]

Job portal providing company and job listings. Developed frontend using React.js with an emphasis on responsiveness and UI design.

Languages

Hindi – Native

English – Professional Working Proficiency.
